BURR KING

TWO WHEEL BELT GRINDER MODEL 960-400

- Up to 6,600 SFPM Abrasive Belt Speed
- Fixed and variable speed models available
- 120 Volt Single Phase to 575 Volt 3 Phase
 8 multiple horsepower options available
- Rotating parts covered eliminating parts entanglement, greater operator safety
- Contact wheel, platen and work support grinding
 - Adjustable belt tension
 - Improved door latching system
 - Positive belt tracking
- Quick belt change
- Compact footprint friendly to "cell" manufacturing
- Multiple Durometer Contact Wheel with plain or serrated face are available
- Adapts for "tool post" or 'on center" grinding

Burr King's family of two wheel grinders provides vigorous contact wheel, workrest, and platen grinding in a frame design that pivots to ideal work positions.

These machines are frequently selected as tool post grinders, roll grinders, and for fixturing into centerless grinding applications.

Available in easily adjustable variable speed and aggressive single speed with multiple motor horsepower options.
