CAUTION: The Model 960-272 belt grinder is designed to be used by persons who require full access to most portions of the belt path. As such users of the 960-272 must exercise caution when using the machine to avoid entanglement in rotating parts, entrapment in pinch points, being struck by grinding debris, being struck by ejected work pieces and other hazards that are associated with power driven rotating equipment. Failure to properly use the machine, follow operating instructions, and good safety practices may lead to serious personal injury, death or property damage. Not for industrial applications. If you require a machine designed for industrial applications please see the Model 960 on page 5.

ALWAYS WEAR PROTECTIVE EYE, FACE, ARM, LEG AND BODY GEAR WHEN USING ANY GRINDER, POLISHER, BUFFER OR OTHER ROTATING MACHINERY.
