

VibraKING Vibratory Chambers

VIBRATORY CHAMBERS THAT DELIVER QUIET, HIGH PERFORMANCE DEBURRING, POLISHING, DESCALING AND SURFACE CONDITIONING!

Optional process timers may be added to the M25, M45, and M85. These timers permit precise process timing control to manage critical finishes and economize valuable shop time. Process timers include high quality magnetic starter contactors.

45110 shown

Shown with FilterPAK 4001 and 3387 sound dampening lid.

- Capacity 2.5, 4.5 and 8.5 cubic feet
- Ultra Quiet
- High Energy, Fast Process Results
- Patented Drive and Isolation
- Portable
- Integrated, Metered, Compound Delivery System
- Flow-through Design
- Accepts Filter PAK 4001
- Replaceable Drain
- NEMA, UL, CSA, Listed Electricals
- Integrated Process Timer and/or Magnetic Starter Option

- Amplitude fully adjustable
- Bronze caged, sealed long life bearings
- Rugged welded steel construction
- Heavy 85 duro urethane liner 5/8" thick
- Integrated discharge chute
- Compact footprint friendly to "cell" manufacturing
- OSHA compliant, enclosed guarding

Improved replaceable drains for models 25, 45, and 85.

- Quick to change
- Minimizes drain clogging
- Easy to reach
- Extends tub life
- Economical
- Standard on all VibraKING tubs
